

# Ledge 65

## Back lit lightboxes

### Description

This 65mm back lit LED tension fabric graphic lightbox is manufactured using a slim 65mm deep aluminium frame. This gives a clean, bright look which is ideal for showing off images of your products or your brand in a way that makes them stand out in a crowd.

The 65mm is designed to be wall mounted or can be used as a freestanding display.

### Key Attributes

- Up to 3.5m high x 50m width
- Quick and easy graphic change
- Even light distribution with no shadow

### LED Details

Operating Voltage	110V~240V AC
Operating Frequency	50~60Hz
Power Factor	>0.9 Typical <sup>3</sup>
Total Power Consumption <sup>1</sup>	42W per metre
LED	Flexible Linear
LED Quantity	432 per metre
Luminous Flux	3024 lm per square metre
LED Operating Voltage	12V DC
Drive Current	6A per square metre
PCB Power Consumption	35W per square metre
LED Colour Temperature <sup>2</sup>	6000K
LED Lifetime <sup>4</sup>	>36,000 hours

1. Assuming Power Supply efficiency of 80%  
3. Power Factor is dependent on Power Supply Unit and Load

2. Can vary +/- 1000K  
4. Based on Manufacturers data at 55 degrees celcius
